#### Series AP - inch

Qn = [[150 ... 250] l/min]

#### Technical data

Industry Industrial
Activation Mechanical
Valve type Poppet valve
Plate connection Pipe connection
Actuating element Pedal, with detent

Compressed air connection type Internal thread

G 1/4 Compressed air connection input G 1/4 Compressed air connection output Compressed air connection, exhaust G 1/4 Nominal flow Qn 550 I/min 0 bar Min. working pressure 10 bar Max. working pressure -30 °C Min. ambient temperature 80 °C Max. ambient temperature -30 °C Min. medium temperature 80 °C Max. medium temperature

Medium Compressed air

Min. oil content of compressed air 0 mg/m³

# 3/2-directional valve, Series AP

2023-11-27

0820400008

Max. oil content of compressed air 5 mg/m $^{3}$  Max. particle size 5  $\mu m$ 

Weight 1.22 kg

Material

Housing material Aluminum

Seal material Acrylonitrile butadiene rubber

Material actuating control Aluminum
Part No. 0820400008

#### Technical information

Sound pressure level measured at 6 bar at 1 m distance

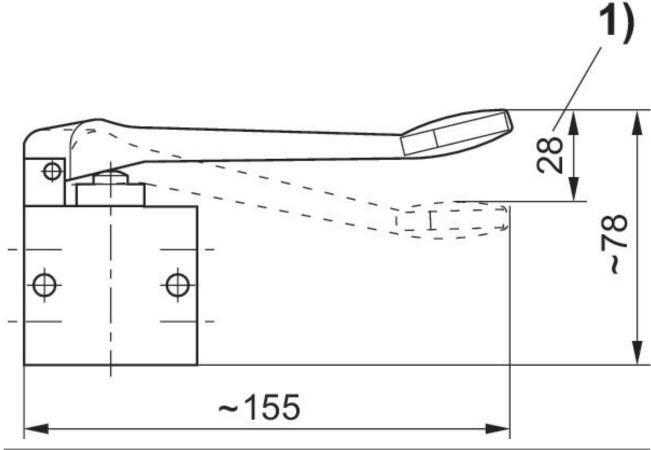

The min. control pressure must be adhered to, since otherwise faulty switching and valve failure may result!

The pressure dew point must be at least 15 °C less than ambient and medium temperature and may not exceed 3 °C.

The oil content of compressed air must remain constant during the life cycle.

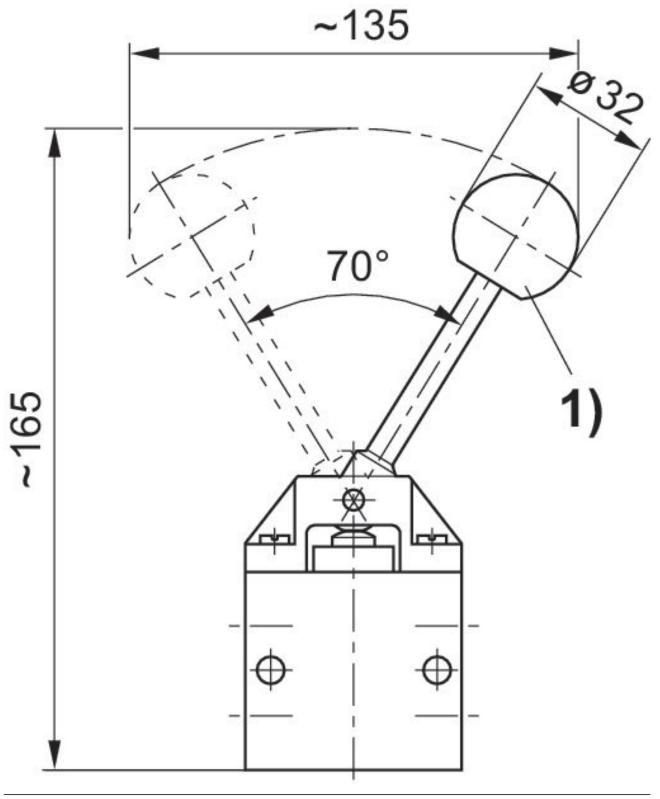

Use only the approved oils from AVENTICS. Further information can be found in the "Technical information" document (available in https://www.emerson.com/en-us/support).
