Pressure regulator, Series NL1-RGS

0821302729

General series information
AVENTICS Series NL1 Air Preparation Units

- The AVENTICS Series NL maintenance units are suitable for all areas: as individual components or as assembled maintenance units, for centralized or decentralized compressed air preparation, in compact or powerful versions, for use in high or low temperatures. This line offers a complete, customizable compressed air preparation technology. It includes an option to combine every component in the Series to achieve the desired function, making it possible to adjust the components precisely to the application requirements.

Technical data

Industry	Industrial
Function	Standard pressure regulator
Parts	Pressure regulator
Port	G 1/8
Nominal flow Qn	1000 l/min
Pressure gauge	with pressure gauge
Mounting orientation	Any
Regulator type	Diaphragm-type pressure regulator
Regulation range min.	0.2 bar
Regulation range max.	6 bar
Working pressure min.	0.5 bar
Working pressure max	16 bar
Min. ambient temperature	-10 °C
Max. ambient temperature	60 °C
Activation	Mechanical
Regulator function	with relieving air exhaust
Regulator type	Can be assembled into blocks
Pressure supply	single
Medium	Compressed air Neutral gases
Recommended pre-filtering	5 µm
Weight	0.294 kg

Material

Housing material	Die cast zinc
Seal material	Acrylonitrile butadiene rubber
Part No.	0821302729

Technical information

The pressure dew point must be at least 15 °C under ambient and medium temperature and may not exceed 3 °C .

Nominal flow Qn with secondary pressure p2 = 6 bar at Δp = 1 bar

The rear pressure gauge connection on the pressure regulator is closed with a blanking plug, the front connection is open. Depending on the customer application, a second blanking plug may be necessary. Please order separately (see accessories).

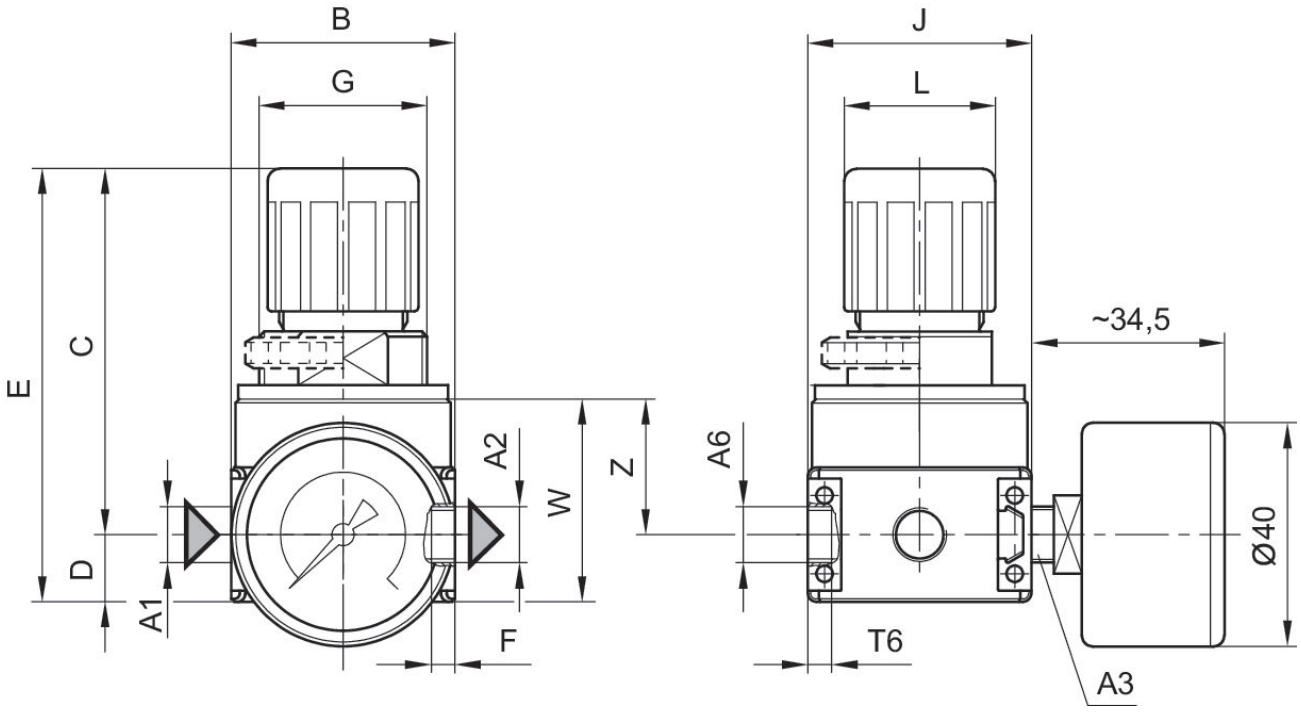

A change in the flow direction (from air supply on the left to air supply on the right) occurs by rotating installation by 180° about the vertical axis. Please see the operating instructions for further details.

Relieving exhaust (≤ 0.3 bar over set pressure)

With rear exhaust (>3 bar)

lockable regulator head

Dimensions

A1 = input
A2 = output
A3 = pressure gauge connection

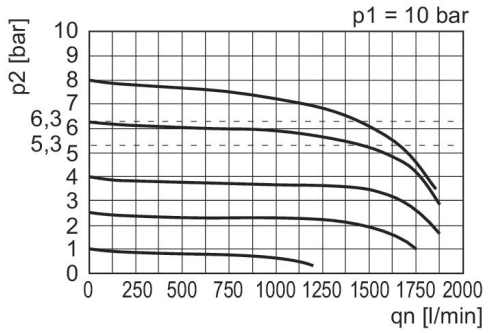

A6 = ventilation port

Dimensions in mm
