Order no.: 47035

Article number: 47035

EAN: 4010995470357

Customs tariff number: 82042000

Product dimensions: 192 x 110 x 24 mm (LxWxD)
Application: Suitable for machine-driven fastening of hex screws up to 79 Nm and manual fastening.
Standard text: Wiha Werkzeuge GmbH is certified according to ISO 9001:2015, ISO 14001:2015 and ISO 50001:2018 and confirms that its products comply with internal regulations, operating instructions as well as applicable norms, standards and legal requirements and are subject to continuous process monitoring. The product complies with the requirements of Regulation (EU) 2017/821 on conflict minerals as well as the OECD Due Diligence Guidance, the General Product Safety Regulation (GPSR), Regulation (EC) No 1907/2008 (REACH), whereby the latest SVHC Candidate List is regularly reviewed and requirements are implemented, Directive 2011/65/EU (RoHS) including amendment (EU) 2015/863 as well as Regulation (EU) 2019/1021 on persistent organic pollutants (POP).
The color-coded surface facilitates selection of the suitable nut driver
Magnetic screw holder
Robust nut drivers for machine operation up to 79 Nm
Extra long design – excellent access to low-lying screws
Anyone who works with machine-operated nut drivers is familiar with the problem – searching for the suitable driver size wastes valuable time and delays the workflow. This problem becomes a thing of the past with the nut driver set from Wiha in the sizes 5.5/6/7/8/10/13 mm. Their color-coded surface helps users identify the right nut driver at a glance – ensuring quick and efficient use.

In addition to their color coding, the nut drivers feature a magnetic screw holder that makes work easier and prevents screws from falling off or getting lost. High-quality chrome molybdenum steel and an impact-resistant design make these nut drivers durable and robust, suitable for use on machines with a torque of up to 79 Nm. With an overall length of 150 mm, they are ideal for hard-to-reach areas and low-lying screws.

Whether on the job site or on the move, the universal nut drivers provide maximum efficiency and make machine operation even more convenient.
